

COMMENTS

Allow your partner community to comment on marketing, sales, training and other content shared within your Allbound instance.

Open Up to Partner Feedback With Comments

Increase community engagement and let partners have the chance to share knowledge, tips and questions with you, and with each other. The Comments app is a great way to let your partner community learn and grow together.

Make Comments App Is A Voice Of The Partner Tool:

Easily enable user comments on different content types within your PRM including marketing, sales, training content and more.

Open up comments throughout your PRM or narrow the functionality to specific content types or user groups.

Expand engagement via a weekly user notification summarizing relevant user comments to relevant partner contacts.

Create a feedback loop on your content so it can constantly be improved and let partners quickly voice what's working and where they have questions.

GIVE YOUR PARTNERS A CHANCE TO COMMENT

Getting started with Comments is simple – launch it, love it and after 14 days pay for it. Little Taller's Comments app is based on many years, and a lot of hands-on experience, with customers using the Allbound platform. Other customers think it's pretty neat, and we think you will too.
