

# COMMUNITY FORUMS

*Bring your partners together and form a real sense of community where they share, collaborate and learn.*

## Create a Gathering Place for Your Partner Ecosystem with Community Forums

Bring community into your Allbound instance with the Community Forums app. Create multiple forums, introduce topics and share responses that keep your partners in-the-know. Community Forums provides the tools you need to establish the go-to place your partners log questions, make suggestions and have discussions about your solutions.

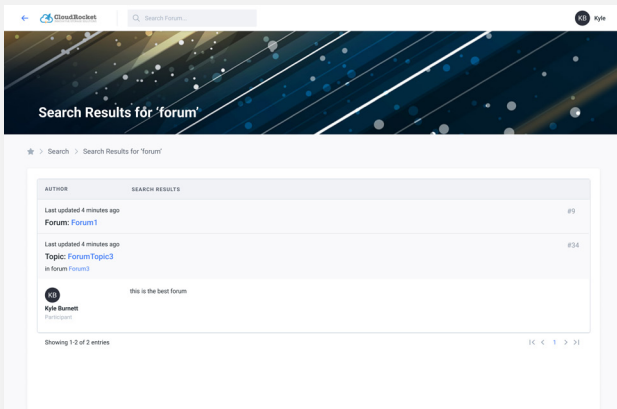

### It Takes a Community:

**Drive engagement through peer-to-peer discussions among segment groups of partners.**

**Increase productivity by offering a self-service option for partner questions.**

**Instantly communicate product news, company updates and more.**

**Easily identify highly engaged partners and leverage their advocacy broadly within your partner ecosystem.**
