

PRODUCT SELECTOR

Leverage your PRM to further enable your CPQ process for your partner ecosystem.

Make Your Configure, Price, Quote Process Channel Partner Quick

The Product Selector app helps ensure your sales teams always have the most up-to-date pricing and availability data. Take the manual work out of quoting with an enhanced SKU or product selection and automated quoting.

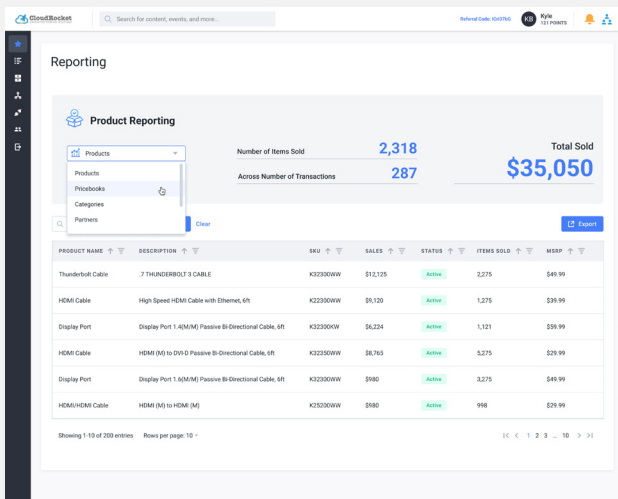

Amplify Allbound's Value While Simplifying Partner Pipeline Processes

Deployed as part of Allbound's deal registration, Product Selector can be used stand-alone or integrated into your CRM or ERP system.

Empower partners with a resource that expedites the quoting process without heavy involvement from your partner and channel managers.

Avoid back and forth changes with partners that cost time and lost deals.

Simultaneously align systems and revenue teams with product and pricing changes.

MAKE PRODUCT SELECTOR A TOP PICK

Getting started with Product Selector is simple – just request it and we'll get it launched following our friction-free deployment process. Little Taller's Product Selector app is based on many years, and a lot of hands-on experience, with customers using the Allbound platform. Other customers think it's pretty neat, and we think you will too.

Access

Submit a request to launch Marketplace Apps and you'll be all set to preview and initiate Product Selector from within your Allbound instance.
